# Kid's Share Help Chart

This chart is to be used on a clip board!

Place clothes pins on the line: left side is where they should start on "to do". When the task is completed, the clothespin can be placed on the done side!

You can decide if there is an "allowance" or reward each day, week, or whatever time period you decide on (in advance) You can keep track of this in your planner or a memo in your phone that only you have access to ;)

I also called this a "help chart" not a chore chart. I believe if you live here, you can do your share! If you are responsible and respectful, good things happen, if not, they don't.

I hope this is helpful for you, if you want anything changed, just let me know and I'd be happy to edit it for you!

-Janica

*"Everyone who lives here is a piece to this beautiful puzzle, this is how you do your share!"*
